Email: madarsh095@gmail.com
Mobile: +91-9648569377

SKILLS

- Languages:** C++, C, Python
- Web Technologies:** HTML, CSS
- Tools/Platforms:** NumPy, Pandas, VS Code, MS Excel, Power BI, GitHub, Jupyter Notebook, Hadoop
- Libraries:** NumPy, Pandas, Matplotlib, Seaborn etc.
- Soft Skills:** Problem-Solving, Team Player, Adaptability, Time Management

PROJECTS

Customer Retention Analytics using Machine Learning | [GITHUB](#)

March 2026

- Developed a machine learning-based analytics solution to predict customer churn using telecom customer data and support data-driven retention strategies.
- Performed data preprocessing, feature encoding, scaling, and class imbalance handling using SMOTE, and trained multiple classification models to identify high-risk customers.
- This can help businesses design targeted retention campaigns, reduce revenue loss, and improve customer lifetime value through predictive insights.

Tech: Python (Lib.), Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook

Excel Dashboard | [GITHUB](#)

May 2024 – June 2024

- Designed and developed an interactive dashboard in Microsoft Excel using a Vehicle Sales Dataset to analyze sales trends and performance metrics.
- Utilized Pivot Table, Pivot Charts and Slicers to enable dynamic filtering and visualization of key insights.
- Implemented conditional formatting and KPIs to highlight top-performing vehicle models and identify sales patterns effectively.

Tech: Microsoft Excel (Pivot Tables, Charts, Slicers, etc.)

Disaster Management Web Application | [GITHUB](#)

March 2024

- A multi-page disaster management web application to provide awareness, safety guidelines, and emergency-related information through an interactive user interface.
- Built frontend pages using HTML and CSS and implemented basic JavaScript functionalities such as navigation handling, user interaction, chatbot input response, and multimedia integration.
- The application can be improved by adding real-time disaster alerts, location tracking to show nearby risks, and proper user login security.

Tech: HTML5, CSS3, Basic JavaScript, GitHub

TRAININGS

Board Infinity | [LINK](#)

June 2025 – July 2025

Summer Training

Tech: HTML, CSS, C++, VS Code

About: Completed intensive training in Python and C++, gaining a strong foundation in programming logic, syntax, and problem-solving. Applied theoretical knowledge through hands-on coding exercises and real-world problem statements.

Octanet Services Private Limited | [LINK](#)

Aug' 2024 – Sep' 2024

Python Development Training

Tech: Pandas, NumPy, Matplotlib

About: Contributed to multiple Python-based development projects, focusing on writing clean and maintainable code. Integrated APIs, handled data processing, and implemented efficient automation scripts to improve workflow efficiency.

CERTIFICATES

- Python for Data Science, AI & Development | [IBM](#)
- March 2026

▪ Cloud Computing NPTEL	July 2025 – Oct 2025
▪ Computer Communications Coursera	Nov' 2024
▪ Introduction to Hardware and Operating Systems Coursera	Sep' 2024
▪ The Bits and Bytes of Computer Networking Google	Sep' 2024
▪ Responsive Web Design Free Code Camp	Sep' 2023

ACHIEVEMENTS

▪ Patent Approval by University LINK Successfully filed and received acceptance for a patent under the university's innovation program.	October 2025
▪ Achieved Multiple Stars on HackerRank LINK Competency stars in various programming languages (C++ - 5 stars, C - 3 stars, Problem Solving - 3 stars).	Sep' 2025
▪ Competitive Programming LINK Solved 150+ coding problems on LeetCode with a 50+ day streak.	Sep' 2025
▪ Secured 2nd Runner-Up in a Hackathon LINK Third position in a Web Hackathon organized at LPU University.	March 2024

EXTRA CURRICULAR

▪ Volunteer Educator Kashi Educare Society, Varanasi LINK Volunteered with an NGO to teach underprivileged students, focusing on improving their academic foundation and learning skills.	July 2024
▪ Symposium 2.0 Lovely Professional University LINK Attended a technical symposium, gaining exposure to emerging trends, expert talks, and innovative project demonstrations.	April 2024

EDUCATION

Lovely Professional University CGPA: 6.50 Bachelor of Technology – Computer Science and Engineering	Punjab, India August 2023 – Present
Janta Inter College Percentage: 80 Intermediate	Azamgarh, Uttar Pradesh April 2021 – March 2022
JSS Shiksha Niketan Percentage: 84 Matriculation	Azamgarh, Uttar Pradesh April 2019 – March 2020
